VERDICT

Steady, no alerts. A quiet Saturday one day after the last run: nothing material changed, with influenced open pipeline holding at ~\$542K, revenue flat at \$2.88M/33 new business, and Kaiser Permanente still the one carried action (still closed-lost, needs a manual reopen).

LEADING INDICATORS & DATA INTEGRITY			
Visit-to-lead conversion (July)	1.99%	above floor	
Marketing-influenced open pipeline	\$542,556	up from \$416,056	
Lead follow-up gap (no outreach)	83/204 = 41%	above 35% threshold	
Closed-lost without a reason	87 deals · \$13,881,643	100% of lost	

OPEN ISSUES

- hubspot-sitemap-cache-stale-redirects (2 healthy 301s remain in the HubSpot sitemap cache; no private-token sitemap write endpoint)
- duplicate-case-study-path (/success-stories and /case-studies both live and indexed for the same content; pick one canonical path and 301 the other, or set a canonical tag; found in daily SEO sweep 2026-07-23)
- ga4-invalid-id-in-hubspot (HubSpot GA4 integration field holds G-320235048, an invalid measurement ID firing into a non-existent property; the real live stream is G-0Y6LQTTBRJ; Edge audit 2026-07-30; awaiting Dillon: repoint or uncheck)
- duplicate-ga4-firing (theme includes align-attribution.min.js twice around the global footer, so G-0Y6LQTTBRJ fires twice per pageview; needs a dev to remove one include; Edge audit 2026-07-30)
- cta-form-missing-attribution-fields (footer CTA form e733d928 posts only name/email/phone/company/service_interest/message, so the 33 Align attribution properties sit at ~0% fill; add align_* fields to the payload; Edge audit 2026-07-30)

ONE HIGHEST-LEVERAGE ACTION TODAY

Same standing action: reopen Kaiser Permanente or log its loss reason. Nothing else needs attention on a quiet weekend; the two Edge-audit dev fixes (duplicate GA4 include, CTA form fields) remain the highest-value items whenever a developer has time.
