REPORT STATUS

Google Ads readback complete;
Ice Box campaigns paused

JULY SIGNAL

Fresh Blends stayed cleanly separated from Replenish in July. The four Ice Box campaigns were reviewed as their own lane and remained paused pending launch authority, store scope, and measurement confirmation.

What moved in July

VERIFIED WORK

- Separated Fresh Blends reporting from the shared Replenish child account and documented the brand boundary.
- Reviewed the four Ice Box PMax rows: stores #1110, #1161, #573, and #633.
- Kept Replenish store rows out of the Fresh Blends totals and kept Fresh Blends out of Replenish client reporting.
- Verified all four Fresh Blends rows remained paused; exact future location scope, authority, and measurement still require confirmation.

Primary goal

NEXT DECISION

Protect brand and budget separation until the new store scope and restart measurement are explicitly approved.

Source observed through

August 2, 2026

EXECUTIVE ANALYSIS

July's most important Fresh Blends result was control: the four Kwik Trip Ice Box campaigns were isolated from Replenish, reviewed as their own portfolio, and left paused while location scope, threshold, and measurement remained unapproved.

The prior account structure made blended reporting easy. The rebuilt lane now identifies exactly which four rows belong to Fresh Blends and prevents Replenish delivery from inflating or obscuring its performance story.

Platform evidence

Google, Meta, and other operating surfaces stay separate.

Google Ads

Verified · exact Fresh rows in shared child account

The four Fresh Blends rows totaled 19,362 impressions, 375 clicks, 1.94% CTR, and \$156.43. The reviewed row snapshot supports delivery and status reporting; a defensible Fresh-only Google lead count remains pending measurement confirmation. Current campaign status is paused.

Spend	Impressions	Clicks	CTR
\$156.43	19,362	375	1.94%

Workstream / campaign	State	Spend / scope	Delivery	Signal
Kwik Trip #1110 · Ice Box · PMax	Paused	Included	Included	Lead reporting pending
Kwik Trip #1161 / #573 / #633	Paused	Included	Included	Lead reporting pending

Brand separation

Control verified

The shared account is a billing and routing detail, not permission to blend client results. Replenish location campaigns remain excluded from every Fresh Blends figure.

Fresh rows	Replenish rows	Current delivery	Outcome state
4	Excluded	Paused	Pending validation

Workstream / campaign	State	Spend / scope	Delivery	Signal
Fresh Blends / Kwik Trip	Separate lane	\$156.43	19,362	July readback
Replenish / 7-Eleven	Separate report	Excluded	Excluded	Do not blend

Freshness and interpretation: Google Ads readback complete; Ice Box campaigns paused. Counts and values are reproduced only where the source names the period and scope; missing fields remain pending.

Outcomes and measurement

Google conversion events count as leads; qualified business outcomes remain separate.

Lead accounting: Google Ads conversion events are counted as leads in this client-facing package. Lead counts are shown as whole integers; when Google reports fractional attribution, the display rounds to the nearest whole lead and preserves the raw value in the supporting note. Platform leads remain separate from qualified, booked, or revenue outcomes.

Platform signal

The Fresh rows support July delivery, spend, and pause-state reporting. Google conversion events will count as leads when a defensible Fresh-only event total is available from the confirmed measurement scope.

Business outcome

Store-level lift, purchase, and qualified action outcomes were not reconciled in the reviewed July source window.

Measurement state

Lead reporting is pending validation. Confirm the named launch scope and measurement definition before restarting any campaign.

Complete July delivery ledger

WORK COMPLETED · WHY IT MATTERS · STATE

Account mapping	Separated Fresh Blends from Replenish inside the shared Google child account.	Prevents cross-brand spend and delivery blending.	Verified
Campaign review	Audited Ice Box Performance Max rows for stores 1110, 1161, 573, and 633.	Defines the exact Fresh Blends reporting perimeter.	Complete
Status control	Verified all four Ice Box rows were paused at the current readback.	Avoids describing a pending restart as active delivery.	Verified
Reporting	Built the Fresh Blends-specific weekly performance dashboard.	Keeps row-level delivery and caveats in one client view.	Delivered
Expansion scope	Held future rollout behind exact location scope, per-location authority, landing destinations, and measurement.	Identifies the commercial decisions required before restart.	Pending
Measurement	Kept the displayed platform field separate from store lift, purchases, and qualified actions.	Protects future decisions from an undefined event count.	Pending

Decisions for August

Three owned next moves, written for action.

Wins

- Fresh Blends has a distinct July reporting lane.
- The campaign pause prevented a restart from being represented as active delivery.

Watchouts

- A shared Google child account can make brand blending easy; every report keeps it separate.
- The reviewed Fresh-only snapshot does not yet support a defensible lead total.
