

Replenish / 7-Eleven

Brand-separated reporting, billing, and account readiness

REPORT STATUS

Report-only lane; Ads delivery held behind billing and account resolution

WEEKLY SIGNAL

Replenish stayed a report-only lane this week. The brand-separated presentation was delivered, billing and access follow-ups continued, and Fresh Blends remained completely outside this report.

Ad delivery

Paused

No account inspection

Current spend

Not reported

No fresh delivery read

Work completed

3 follow-ups

Aug 3 to Aug 6

Next gate

Billing

Before reactivation

What we completed this week

WEEKLY
READ

- Delivered the Replenish and 7-Eleven presentation separately on August 3 with its own logo and reporting boundary.
- Followed the billing and access route through the Aug 4 to Aug 6 communication thread.
- Kept Fresh Blends and Kwik Trip out of the Replenish totals, logo, and next actions.
- Held reactivation and optimization until account resolution produces a clean current-window read.

Primary goal

NEXT ACTION WINDOW

Resolve billing and account ownership before reactivation, then capture a clean weekly window before making optimization recommendations.

Next planning period

August 2026

EXECUTIVE ANALYSIS

This week's work was control and separation. Replenish has a distinct reporting lane, but no current Ads metrics were available without opening the account, which remains outside the approved scope.

Billing and access are the decision gates. A fresh weekly performance read should begin only after delivery resumes and the account route is confirmed.

Channel performance

Aug 3 to Aug 9 activity and results by channel.

Google Ads

Paused · report only

The current communication evidence states that delivery is held pending payment and account resolution. The Ads account was not opened for this report.

Status	Spend	Leads	Access	
Paused	Not reported	Not reported	Pending	

Workstream / campaign	State	Spend / scope	Delivery	Signal
Replenish Ads lane	Held	—	No current read	Billing gate
Reactivation	Not started	—	—	Approval needed

Client reporting

Delivered · Aug 3

The Replenish presentation was delivered separately, without blending Fresh Blends performance into the client view.

Report	Brand	Fresh Blends	Next	
1	Separate	Excluded	Billing	

Workstream / campaign	State	Spend / scope	Delivery	Signal
Replenish report	Delivered	—	Separate packet	7-Eleven mark
Fresh Blends	Excluded	—	Separate lane	No blended totals

Weekly summary: Report-only lane; Ads delivery held behind billing and account resolution.

Weekly results and work completed

Weekly evidence is separated from downstream business outcomes.

Lead accounting: Platform-reported lead events are shown as whole integers where a current platform read was authorized. Platform activity remains separate from qualified inquiries, booked work, revenue, and other downstream outcomes. Unavailable fields remain pending validation.

Media results

No current-week Ads metric is claimed. The authorized evidence supports a paused report-only lane while billing and access are resolved.

Business results

Store engagement and downstream outcomes are not reported for this window.

Next reporting focus

Capture a clean Monday through Sunday platform window only after delivery resumes; keep all Fresh Blends evidence separate.

Work completed Aug 3 to Aug 9

WORK COMPLETED · WHY IT MATTERS · STATE

Reporting	Delivered the separate Replenish presentation on Aug 3.	Keeps the 7-Eleven brand and totals distinct.	Delivered
Account	Followed the billing and access thread through Aug 6.	Identifies the gate before any new delivery read.	Open
Boundary	Excluded Fresh Blends from the packet and next actions.	Prevents cross-brand contamination.	Verified
Media	Held reactivation and optimization until account resolution.	Avoids making recommendations from an unavailable current window.	Held

August plan

Owned next steps, written for action.

Weekly highlights

- The Replenish report stayed brand-separated.
- No unsupported current-week Ads metric was introduced.

August focus

- Resolve billing and account ownership.
- Begin a clean weekly performance read after delivery resumes.

Planned next steps

OWNER · TIMING · IMPACT

01	Resolve Close the billing and account-access route	Sean + Mia Before reactivation
02	Read Capture the next clean Monday through Sunday window	Dillon After delivery
03	Optimize Use current evidence only after the account is live	Momentum After read
