- Prepared a protected Brand and tightly controlled Nonbrand campaign architecture for the next phase.
- Completed a paid-search readiness packet covering landing-page selection, primary conversion definition, and release gates.

Primary goal

SEPTEMBER PLAN

Protect Brand performance, consolidate fragmented nonbrand activity, and validate the primary lead signal before scaling budget.

Next planning period

September 2026

EXECUTIVE ANALYSIS

Brand Exact remains Nexla's clearest demand signal, producing 119 August clicks at a 21.06% click-through rate. The blended account cost per click was materially below the current Business Services benchmark.

Nonbrand engagement remains uneven across MCP, data integration, and data-product themes. The next step is controlled consolidation with a trustworthy primary conversion rather than broader expansion.
