

KIMBERLY JAMES BRIDAL

Weekly progress report

Sep 1 to Sep 8, 2026

A closer look at the work completed, the evidence available, and the priorities ahead.

FOLLOW THE ENQUIRY THROUGH.

The client confirmed a Meta-only channel test, with Google Ads paused. Meta delivered seven attributed form lead events on \$68.00 for September 1 to 7. The work also covered qualifying questions, campaign tagging, direct lead handoff and recovery of the native lead export for the earlier September 1 to 3 slice. The next measurement step is confirming which enquiries became appointments.

The actions below separate verified changes, reported progress and work awaiting review.

Work reviewed Sep 1 to Sep 8, 2026

Evidence reviewed Sep 8

Prepared by Momentum 360

WHAT MOVED FORWARD

Specific actions, deliverables and decisions, with their evidence status.

Sep 1

Client decision to pause Google Ads and run Meta alone

Verified work /
decision

Replying to the August report, the client asked to stop Google Ads and see how Meta performs on its own, explicitly to learn which channel works better for the store, with the option to switch back.

Establishes the client's chosen channel strategy for the next review.

Gmail · 2026-09-01

Sep 2

Reported
complete

Qualification and campaign tagging reviewed

The team documented qualifying questions in the Meta lead form and campaign UTM parameters. These provide a basis for reviewing enquiry fit and source, but do not by themselves prove appointment quality.

Supports a more useful assessment than form-event volume alone.

Account team update · 2026-09-02

Sep 3

Verified work /
decision

Lead handoff acknowledged by the client

Recent Meta leads were emailed to the client, who replied that she would contact them that day. The acknowledgement verifies handoff and intended follow-up; completed contact and booking outcomes remain to be confirmed.

Connects the campaign intake to the store's follow-up process.

Client correspondence · 2026-09-03

Sep 4

Verified work /
decision

Early Meta audit prepared

The September 1 to 3 audit recorded two attributed form lead events on \$26.98. This early slice is retained as audit history; the newer September 1 to 7 result appears in the measured-results section.

Keeps the early audit and the latest reporting window distinct.

Dated audit · 2026-09-04

Sep 5

Verified work /
decision

Native lead export reconciled

A verified export contained two distinct records for September 1 to 3 Eastern Time, one from Facebook and one from Instagram in the correct campaign and ad set. One matched the earlier screenshot handoff. Absence from a limited screenshot set does not prove a lead was never contacted.

Provides a source record for follow-up reconciliation without exposing personal information.

Export verification receipt · 2026-09-05

WHAT THE DATA SHOWS

Each channel keeps its own dates, attribution and collection time.

Google Ads

Sep 1 to Sep 8, 2026

WHERE WE GO NEXT

The priorities supported by this period's work and account decisions.

Confirm appointment outcomes

Match the form enquiries to contact status, booked appointments and eventual sales.

Store team with Momentum 360

Continue the agreed Meta test

Review the independently dated Meta results and lead quality before the next channel decision.

Momentum 360

Review local search improvements

Confirm Google Business Profile upkeep and select useful website SEO improvements from the September discussion.

Momentum 360

DECISIONS & DEPENDENCIES

Sep 1

Google Ads paused at client request; Meta continues alone as a channel test.

Sep 3

Agreed to look at Google Business Profile management and low-effort website SEO as added value this month.

EVIDENCE, CLEARLY DATED.

Prepared from a September 8 review of dated account communications, available project artifacts and relevant working-session records. Platform figures below are independently dated.

Work discussed during the period can relate to an earlier deliverable. Those cases are labelled. Channel results retain their own reporting window and collection date; visits, platform events and business outcomes are separate measures.

Source links and personal contact details remain in the private evidence file. This report contains only this client's work and results.

Keep the work moving.
