

Consolidated Systems. Standardized Pay. Zero Disruption.

How Align HCM helped a national traffic-safety leader unify disconnected time and payroll systems after rapid acquisition growth, with zero disruption.

INDUSTRY
Traffic Safety

FOOTPRINT
Multi-site, nationwide

ENGAGEMENT
System consolidation

CASE STUDY · AWP SAFETY

THE CHALLENGE

Rapid Growth Created Workforce Complexity

DISCONNECTED SYSTEMS

- Multiple legacy time and payroll platforms
- No data exchange between systems
- Siloed operations across locations

INCONSISTENT PAY RULES

- Disparate processes per location
- Manual data entry and errors
- Compliance gaps and risk

ACQUISITION INTEGRATION

- A large acquired workforce to absorb fast
- No scalable onboarding process
- Urgent integration timeline

HOW ALIGN HCM HELPED

An Accelerated, Guided Consolidation

1 Discover

Mapped every legacy system and pay rule across the business.

2 Implement

Consolidated into one cloud platform with custom integrations and standardized rules.

3 Sustain

Optimized and supported the team through go-live and beyond.

Custom data integrations · Standardized pay rules · Automated workflows

THE RESULTS

Immediate & Lasting Impact

Consolidated Systems

Legacy timekeeping unified into one cloud-based platform.

Standardized Rules

Consistent pay and time practices across every location.

Reduced Errors

Fewer payroll errors, improved accuracy, and greater compliance.

“We make the platform behind your people work.”

THE ALIGN HCM PROMISE

ABOUT THE CLIENT

AWP Safety is a national leader in traffic-safety services, protecting work zones and the crews who keep infrastructure moving across the country.
