CASE STUDY · GREATER TORONTO AIRPORTS AUTHORITY

THE CHALLENGE

A Rollout That Needed a Rescue

SCHEDULING STRAIN

- Scheduling inefficiencies after go-live
- Limited operational visibility
- Day-to-day workarounds piling up

COMPLIANCE RISK

- Union contract compliance at risk
- Unclear accrual rules
- Complex agreements to honor

KNOWLEDGE GAPS

- Internal team still learning the platform
- Heavy reliance on outside help
- No clear path to self-sufficiency

HOW ALIGN HCM HELPED

SmartCare Stabilize: Dedicated, Proactive, Hands-On

1 Stabilize

Dedicated consultants triaged and resolved 12 priority needs within six months.

2 Optimize

Tuned configuration and applied best practices, with accruals aligned to union agreements.

3 Transfer

Moved critical knowledge to the internal team for lasting self-sufficiency.

12 priority needs resolved in six months · Best practices · Knowledge transfer

THE RESULTS

Immediate & Lasting Impact

Operational Efficiency

Improved scheduling visibility across airport operations.

Compliance Confidence

Accrual rules configured accurately to union agreements.

Self-Sufficient HR

An empowered team that runs the platform with confidence.

“The services from Align are exceptional. The consultants are proactive, responsive, and show a real dedication to delivering results.”

Ryan Roncesvalles · Manager, HR Systems, GTAA

ABOUT THE CLIENT

The Greater Toronto Airports Authority operates Toronto Pearson International Airport, Canada's largest and busiest airport, with a deep commitment to operational excellence and employee engagement.
