CASE STUDY · RESORTS WORLD LAS VEGAS

THE CHALLENGE

Maximizing Platform Value in a Competitive Market

UNTAPPED CAPABILITIES

- Performance management not configured
- Succession planning not deployed
- Platform investment underutilized

MANUAL HR PROCESSES

- Manual benefits and retirement feeds
- High risk of input errors
- Hours lost to reconciliation

MARKET PRESSURE

- Fierce labor competition on the Strip
- Tooling not yet modernized
- Rollout timing critical to adoption

HOW ALIGN HCM HELPED

Strategic Setup, Tuned for Adoption

1 Discover

Assessed the unused modules and the manual data flows holding HR back.

2 Implement

Configured performance and succession modules and automated data feeds.

3 Sustain

Tuned to best practice and timed the rollout for maximum adoption.

Strategic advice · Technical setup · Best-practice configuration

THE RESULTS

Immediate & Lasting Impact

Performance & Succession

Modules fully configured and ready, aligned to the business cycle.

Automated Data Feeds

Reliable flows between systems eliminate manual effort and reduce errors.

Maximized Value

Existing platform investment tuned to best practice for a large operation.

“We make the platform behind your people work.”
