

CASE STUDY

Consolidated Systems. Standardized Pay. Zero Disruption.

How Align HCM helped a national traffic-safety leader unify disconnected time and payroll systems after rapid acquisition growth, going live on an accelerated timeline with zero disruption.

INDUSTRY
Traffic Safety

FOOTPRINT
Multi-site, nationwide

ENGAGEMENT
System consolidation

THE CHALLENGE

Rapid Growth Created Workforce Complexity

DISCONNECTED SYSTEMS

- Multiple legacy time and payroll platforms
- No data exchange between systems
- Siloed operations across locations

INCONSISTENT PAY RULES

- Disparate processes per location
- Manual data entry and errors
- Compliance gaps and risk

ACQUISITION INTEGRATION

- A large acquired workforce to absorb fast
- No scalable onboarding process
- Urgent integration timeline

HOW ALIGN HCM HELPED

An Accelerated, Guided Consolidation

1

Discover

Mapped every legacy system and pay rule across the business.

2

Implement

Consolidated into one cloud platform with custom integrations and standardized rules.

3

Sustain

Optimized and supported the team through go-live and beyond.

Custom data integrations . Standardized pay rules . Automated workflows

THE RESULTS

Immediate & Lasting Impact

Consolidated Systems

Legacy timekeeping unified into one cloud-based platform.

Standardized Rules

Consistent pay and time practices across every location.

Reduced Errors

Fewer payroll errors, improved accuracy, and greater compliance.

AWP Safety is a national leader in traffic-safety services, protecting work zones and the crews who keep infrastructure moving across the country.

Your HCM platform should work for you. **Not the other way around.**
