What we completed in August

AUGUST
RECAP

- Delivered the August organic-growth plan and preserved the five-piece content package for review.
- Kept the sitemap and organic acquisition path ready without representing the package as published.
- Prepared the Revive Systems Marketing Thoughts document for client feedback.
- Held paid media and Local Services Ads behind the exact approval, account, and readiness decisions.

Primary goal

SEPTEMBER PLAN

Collect client feedback, approve the first publication sequence, establish the organic baseline, and confirm the Local Services Ads readiness gate before any paid activation.

Next planning period

September 2026

EXECUTIVE ANALYSIS

Revive's August value is a complete organic package and a clear decision path, not a live performance claim. Publication remains the step that turns prepared work into measurable visibility.

Paid media stayed off. The correct next measure is the post-publication baseline for rankings, organic landing-page activity, inquiries, and booked consultations.

August results and work completed

Platform activity is separated from qualified business outcomes.

Lead accounting: Platform activity is reported separately from qualified inquiries, appointments, estimates, bookings, and revenue. Conversion reporting remains pending validation wherever the exact action definition, attribution window, or downstream outcome is not fully reconciled.

Media results

No August paid-media result is claimed. The verified work is the prepared organic package, sitemap path, and strategy document.

Business results

Organic visibility, inquiries, consultations, and revenue remain pending publication and baseline measurement.

August reporting focus

Publish the approved sequence, record the organic baseline, and confirm the paid-readiness route before activation.
