What we completed in August

AUGUST
RECAP

- Confirmed the North Hills and Highland Park service-area pages as published.
- Advanced the site with one new blog, four reported service-page additions, clearer navigation, and a stronger call path.
- Completed the August 27 search baseline and a ten-query monitoring set for the next measurement cycle.
- Prepared the FAQ repair, location spelling correction, search markup specification, and crawl-access recommendations for publication.

Primary goal

SEPTEMBER PLAN

Publish the approved site fixes, strengthen the highest-intent service pages, and connect organic inquiries to estimate and booked-project outcomes.

Next planning period

September 2026**EXECUTIVE
ANALYSIS**

Fagan's August evidence is organic-first. Ranking breadth is established, and the next value comes from publishing the prepared site fixes and strengthening the service pages that already show demand.

Paid media remained off, so no August ad-spend or paid-lead claim is made. One website estimate notification was visible in the month, but attribution and booked-project outcomes remain separate.

August summary: Organic growth advanced; paid media remained off; the latest site repair packet awaits publication.

August results and work completed

Platform activity is separated from qualified business outcomes.

Lead accounting: Platform activity is reported separately from qualified inquiries, appointments, estimates, bookings, and revenue. Conversion reporting remains pending validation wherever the exact action definition, attribution window, or downstream outcome is not fully reconciled.

Media results

No August paid-media delivery is claimed. The verified activity is organic visibility, page production, and the prepared site-health packet.

Business results

One website estimate notification was visible in August; contact, estimate, booked-project, and revenue outcomes are not attributed here.

August reporting focus

Publish the prepared fixes, then track ranking movement, page engagement, form inquiries, and booked-estimate quality.
