ALERTS FIRED THIS WEEK

- 07-23

Influenced open pipeline dropped 89% (\$140K to \$15K) [threshold: >50% MoM drop]. Cause is a single deal: Kaiser Permanente (Organic Search, \$125K) moved from open to closed-lost since the last run. The only marketing-sourced deal still open is RPM xConstruction (\$15K, presentation scheduled).
- 07-23

Premature/erroneous close, data integrity: Kaiser Permanente is now closed-lost but carries a future close date (2026-09-30), a \$0 amount, and no loss reason. Same anomaly pattern as Superior Propane and Eat'n Park. Human-review item (reopen if still live), not a site fix. No site-health thresholds tripped: no WoW view breach, no zero-submission streak, /404 not in the top pages, daily views non-zero, conversion above floor.
