

From 24 nations of workarounds to one platform, live Jan 1.

World Central Kitchen feeds people in crisis, standing up field kitchens and mobilizing thousands of relief contractors on short notice. Align HCM won the Dayforce full suite implementation against a Big 4 firm and a specialist implementation partner, then built the surge onboarding model the mission actually runs on.

JAN 1

GO LIVE WITH DAY ONE FINANCE

THE SITUATION

WCK ran BambooHR, Airtable, Gmail based approvals, and a3innuva with no unified HR platform. That left data gaps, manual errors, and compliance exposure stretched across 24 countries and multiple entity structures, with no single source of truth for the workforce.

WHY ALIGN HCM

Align designed a purpose built Relief Contractor surge onboarding model: bilingual, field deployable, and configured for multi country compliance from day one. It was paired with proven Sage Intacct integration expertise. No other bidder offered either one.

THE OUTCOME

WCK selected Align over a Big 4 consulting firm and a specialized HCM implementation partner, citing operational depth, mission alignment, and superior proposal specificity. Flexibility on commercial terms and rate structure sealed the partnership.

THE OPERATING REALITY

- Relief contractor surges of 800 to 2,000 people on short notice
- Field offices in Jordan, Ukraine, Egypt, and Israel running independently
- Compliance across 24 countries and multiple entity structures
- A hard Jan 1 go live with Sage Intacct integrated on day one

01

Built the surge model

A scalable relief contractor onboarding workflow for humanitarian surge operations, deployable in the field in two languages.

02

Solved the finance risk

Proven Sage Intacct capability cleared WCK's highest risk requirement with the integration live on the Jan 1 cutover.

03

Co authored the scope

Eight plus working sessions on the solution design and SOW gave WCK line by line ownership of scope, timeline, and deliverables.

04

Matched the mission

A give back commitment and mission alignment no competitor put on the table alongside the delivery plan.

"Align HCM has clearly done its homework on WCK's complexity. The RC surge onboarding model, bilingual delivery, Sage Intacct Day 1 integration, and the mission give back commitment all stood out."
