Requested reporting scope

What we completed in August

AUGUST
RECAP

- Kept Replenish and 7-Eleven reporting completely separate from Fresh Blends.
- Delivered two weekly reporting packets and maintained the location-level campaign structure.
- Reconciled billing, account access, and campaign-readiness follow-ups during the month.
- Prepared the monthly top-line KPI handoff and reserved click-to-directions for the existing Netlify reporting layer.

Primary goal

SEPTEMBER PLAN

Give Mia one clear Replenish-only monthly view, preserve location-level detail, and add the Netlify click-to-directions KPI before final client presentation.

Next planning period

September 2026

EXECUTIVE ANALYSIS

Replenish delivered the largest click volume in the current Google portfolio at less than one dollar per click. The strongest campaign-level click-through rates were Carmel Mountain at 2.81% and Torrey Del Mar at 2.37%.

The client view remains intentionally brand-specific. Fresh Blends is not running in this report, and the monthly presentation should contain one Replenish PowerPoint only.

Channel performance

August activity and results by channel.

Google Ads

Verified · Aug 1–31

Nine store campaigns generated 705 clicks from 38,690 impressions on \$684.74 in spend. The account averaged \$0.97 per click.

Spend	Clicks	Impressions	Avg. CPC
\$684.74	705	38,690	\$0.97

Workstream / campaign	State	Spend / scope	Delivery	Signal
Torrey Del Mar	Active	\$127.25	176 clicks	2.37% CTR
Carmel Mountain	Active	\$110.78	99 clicks	2.81% CTR
Coral Springs	Active	\$85.72	26 clicks	0.46% CTR
Boca	Active	\$82.68	51 clicks	1.40% CTR
Pompano	Active	\$67.80	95 clicks	2.11% CTR

Reporting and attribution

Monthly handoff in progress

The top-line campaign KPIs are complete. Click-to-directions remains a separate site-based KPI because it is embedded in the Netlify reporting path.

Top-line KPIs	Directions KPI	Decks	Fresh Blends
Complete	Pending	1	Excluded

Workstream / campaign	State	Spend / scope	Delivery	Signal
Replenish PDF	Built	Monthly	Google KPIs	Client-ready
Replenish PowerPoint	Built	One deck	Location view	Client-ready
Click-to-directions	Owner handoff	—	Netlify	Pending

August summary: Full-month Google delivery verified; click-to-directions reporting remains a separate Netlify KPI.
Industry comparison: **53% lower** August Google CPC than the 2026 Restaurants & Food search benchmark of \$2.05.

August results and work completed

Platform activity is separated from qualified business outcomes.

Lead accounting: Platform activity is reported separately from qualified inquiries, appointments, estimates, bookings, and revenue. Conversion reporting remains pending validation wherever the exact action definition, attribution window, or downstream outcome is not fully reconciled.

Media results

Google delivered 705 clicks at a \$0.97 average CPC across the August store program.

Business results

Store visits, direction clicks, and downstream sales are not represented as Google conversions in this report.

August reporting focus

Add the Netlify click-to-directions read separately, then use location-level traffic and visit signals to prioritize the next campaign review.

Work completed in August

WORK COMPLETED · WHY IT MATTERS · STATE

Boundary	Kept Replenish separate from Fresh Blends.	Protects brand, spend, and KPI accuracy.	Verified
Access	Followed billing and campaign-access items.	Restored a reliable monthly reporting route.	Advanced
Reporting	Completed location-level top-line KPI reporting.	Makes store performance reviewable in one view.	Complete
Directions	Reserved the site-based KPI for Dillon.	Preserves the embedded measurement logic.	Pending

September plan

Owned next steps, written for action.

August highlights

- August average CPC was materially below the current restaurant category benchmark.
- Torrey Del Mar and Carmel Mountain led campaign-level engagement.

September focus

- Add click-to-directions from the Netlify reporting layer.
- Review lower-engagement locations before adjusting spend distribution.

Planned next steps

OWNER · TIMING · IMPACT

01	Complete Add the August click-to-directions KPI from Netlify.	Dillon Before client presentation
02	Review Own the top-line campaign KPI read by location.	Ruben + Momentum Early September
03	Optimize Prioritize creative and targeting review for lower-engagement stores.	Paid media After KPI review
