Weekly progress report

Sep 1 to Sep 8, 2026

A closer look at the work completed, the evidence available, and the priorities ahead.

TURN VISIBILITY INTO USEFUL ENQUIRIES.

This week's organic work included content planning, backlink follow-up, two website enquiry notifications and a recurring monthly review meeting. The prepared website repair package remains a carry-forward priority. GEO optimization was confirmed before this reporting period and remains part of the organic scope. No paid-media results or recommendations are included.

The actions below separate verified changes, reported progress and work awaiting review.

DECISIONS & DEPENDENCIES

Sep 4

A recurring monthly review call was established for the third Thursday, 2:30 to 3:30 p.m. Eastern.

EVIDENCE, CLEARLY DATED.

Prepared from a September 8 review of dated account communications, available project artifacts and relevant working-session records. Platform figures below are independently dated.

Work discussed during the period can relate to an earlier deliverable. Those cases are labelled. Channel results retain their own reporting window and collection date; visits, platform events and business outcomes are separate measures.

Source links and personal contact details remain in the private evidence file. This report contains only this client's work and results.

Keep the work moving.
