

OMEGA LANDSCAPING & CONCRETE

Weekly progress report

Sep 1 to Sep 8, 2026

A closer look at the work completed, the evidence available, and the priorities ahead.

A WORKING PATH FROM SEARCH TO CONTACT.

The September 4 recovery switched serving back to the existing High Intent Colorado Springs campaign at its unchanged \$50 average daily budget and paused the legacy call-only campaign. The website phone link was also published and checked on desktop and mobile. On September 5, the Calls from ads counting setting was changed from Every to One. Current delivery is established; qualified estimate outcomes still need reconciliation.

The actions below separate verified changes, reported progress and work awaiting review.

Work reviewed Sep 1 to Sep 8, 2026 Evidence reviewed Sep 8 Prepared by Momentum 360

WHAT MOVED FORWARD

Specific actions, deliverables and decisions, with their evidence status.

Sep 4	High Intent campaign restarted and legacy campaign paused
Verified work / decision	The existing High Intent Colorado Springs campaign was enabled at its unchanged \$50 average daily budget. The legacy Concrete Call Only campaign was paused, and all eight other campaigns were confirmed paused across the full nine-row account view. Concentrates current serving in the intended campaign with a verified status readback. Project evidence · 2026-09-04

Sep 4

Website click-to-call path corrected and published

Verified work /
decision

The existing contact phone number was made clickable with the correct business number in the dialer. The dated receipt records Wix publication and checks of the public link on desktop and mobile.

Removes friction for visitors ready to call without treating a click as a qualified enquiry.

Publication verification receipt · 2026-09-04

Sep 5

Call conversion counting changed from Every to One

Verified work /
decision

The Calls from ads action was changed to count One, and the setting was reloaded to confirm it persisted. This setting is per ad interaction; it does not deduplicate people across all contacts or establish call quality.

Makes the configured counting method explicit for future reporting.

Project evidence · 2026-09-05

WHAT THE DATA SHOWS

Each channel keeps its own dates, attribution and collection time.

\$100.83

Spend

278

Impressions

13

Clicks

\$7.76

Average cost per click

Delivery at collection: Enabled: 1 campaign. Account timezone: America/Denver. Period activity may precede a pause. Conversion reporting is pending validation. September 8 is a partial day through the collection time shown. Google Ads reporting is not real time. Scope: Account total, all 9 campaign rows read; includes historical activity in now-paused campaigns.

Campaign	Impressions	Clicks	Spend
Search High Intent Colorado Springs 2026-07-30 Enabled · Eligible (Learning)	275	13	\$100.83
Search_Concrete Services_Call Only Paused	3	0	\$0.00

WHERE WE GO NEXT

The priorities supported by this period's work and account decisions.

Reconcile calls and forms to estimate opportunities

Confirm connected calls, accepted forms and the resulting qualified estimates before adjusting budget or service emphasis.

Momentum 360

Validate the form-success measurement path

Check successful submission and the intended conversion event together. A rendered form or installed tag alone is insufficient.

Momentum 360

Review delivery after the recovery

Monitor the intended High Intent campaign using a clearly dated period and retain the current budget unless a change is agreed.

Momentum 360

DECISIONS & DEPENDENCIES

Sep 4	The existing High Intent campaign is the sole enabled campaign in the verified recovery view; its \$50 average daily budget was preserved.
Sep 5	Calls from ads uses the One counting setting. Business lead qualification remains a separate check.

EVIDENCE, CLEARLY DATED.

Prepared from a September 8 review of dated account communications, available project artifacts and relevant working-session records. Platform figures below are independently dated.

Work discussed during the period can relate to an earlier deliverable. Those cases are labelled. Channel results retain their own reporting window and collection date; visits, platform events and business outcomes are separate measures.

Source links and personal contact details remain in the private evidence file. This report contains only this client’s work and results.

Keep the work moving.
