Weekly progress report

Sep 1 to Sep 8, 2026

A closer look at the work completed, the evidence available, and the priorities ahead.

MAKE THE PATH TO STORE VISITS CLEAR.

Replenish’s work centered on restart readiness and measurement. The client confirmed that the stores are open, and the follow-up specified current availability copy, campaign asset corrections, Get Directions tracking and advertiser verification as the steps to close. The campaign edits were reported staged. The latest platform snapshot still shows the selected Replenish campaigns ended, so this report does not present them as currently serving.

The actions below separate verified changes, reported progress and work awaiting review.

WHAT MOVED FORWARD

Specific actions, deliverables and decisions, with their evidence status.

Sep 1	Store availability confirmed and page changes requested
Verified work / decision	The client confirmed all stores are open. The follow-up requested replacing Coming soon and Coming this August wording on the five South Florida pages with current availability information. Aligns the customer journey with the actual store opening status. Client correspondence · 2026-09-01

Sep 1

Campaign corrections reported staged

Reported complete

The follow-up identified Coral Springs copy that referred to Boca and an unrelated legacy sitelink. Later that day, the account reply reported the campaign-side changes staged and ready to publish. That message does not establish a live restart.

Keeps location-specific messaging accurate before traffic resumes.

Sep 1

Tracking responsibilities and restart conditions documented

Verified work / decision

The programmer was assigned the Google tag and Get Directions connection, with Momentum to validate the installed event. Page updates, a successful tracking test and advertiser verification were named as restart conditions.

Connects directions intent to the correct reporting action instead of relying on page exits.

Sep 1

Location review and presentation work assigned

In progress

Campaign delivery review by location and strategy notes were assigned to the supporting account team. The presentation still needs a verified August click-to-directions figure from the site reporting layer.

Separates the advertising review from the website KPI that still requires evidence.

Account team update · 2026-09-01

Sep 2

Client meeting proposed

Verified work / decision

An email proposed meeting availability to review performance and next steps. A confirmed meeting date was not established in the reviewed thread.

Provides a direct review point for the readiness checklist.

Carried forward into this period

- On August 31, the account check already found all nine asset groups using the shared location finder. Changing every destination is not an outstanding task from that audit.

WHAT THE DATA SHOWS

Each channel keeps its own dates, attribution and collection time.

WHERE WE GO NEXT

The priorities supported by this period's work and account decisions.

Finish the store-finder changes

Replace outdated availability copy and confirm store details on each affected page.

Website owner with Momentum 360

Validate Get Directions measurement

Test the correct Google Ads event on the shared finder and obtain the dated August directions figure.

Momentum 360

Resolve verification and confirm restart

Check advertiser verification and review the staged location assets before agreeing a restart. Ended campaigns are not a live launch.

Momentum 360

DECISIONS & DEPENDENCIES

Sep 1 Campaign restart depends on current store-page information, tested directions tracking and advertiser verification.

EVIDENCE, CLEARLY DATED.

Prepared from a September 8 review of dated account communications, available project artifacts and relevant working-session records. Platform figures below are independently dated.

Work discussed during the period can relate to an earlier deliverable. Those cases are labelled. Channel results retain their own reporting window and collection date; visits, platform events and business outcomes are separate measures.

Source links and personal contact details remain in the private evidence file. This report contains only this client's work and results.

Keep the work moving.
