

Automated Compliance. **Accurate Payroll.** Scalable Operations.

How Align HCM helped a global berry leader automate complex labor compliance in Mexico, and handed their team the tools to run it independently.

INDUSTRY

Agriculture

FOOTPRINT

Global operations

ENGAGEMENT

Compliance automation

CASE STUDY · DRISCOLL'S

THE CHALLENGE

Managing Complex Labor Laws Across Mexico Operations

COMPLEX OVERTIME LAWS

- Highly regulated pay structures
- Strict legal compliance requirements
- Country-specific calculations

MANUAL PROCESSES

- Legacy payroll processes
- High risk of human error
- Inefficient reporting workflows

COMPLIANCE RISK

- Exposure to labor violations
- Audit and reporting gaps
- Dependence on outside consultants

HOW ALIGN HCM HELPED

Localized Automation, Built to Run In-House

1

Discover

Mapped Mexico's labor rules to the payroll and benefits process.

2

Implement

Configured the platform for local legal requirements and built branded training.

3

Sustain

Enabled the team to report and manage compliance without outside help.

Localized compliance · Branded training resources · In-house independence

THE RESULTS

Immediate & Lasting Impact

Improved Payroll Accuracy

Automated calculations eliminate human error in payroll.

Efficient Compliance Reporting

Accurate, timely reports that meet local labor laws.

Independent & Scaling

The team runs it without outside support; the partnership expanded to Europe.

“The way Align put it together, it couldn't have gone better. Our business has so many complex rules, but they made it happen.”

Pete Meza · Payroll Manager, Driscoll's

ABOUT THE CLIENT

Driscoll's is a global leader in fresh berries, delivering premium strawberries, blueberries, raspberries, and blackberries through a network of trusted growers across the United States, Mexico, Australia, and Europe.

Your HCM platform should work for you. **Not the other way around.**
